

Dasari Pranathi

Prakasam, AP

📞 9346450893 ✉ pranathidasari07@gmail.com 🌐 pranathi-portfolio-link.com 🐙 github.com/pranathi773

Profile

A motivated and technically skilled B.Tech ECE graduate (2025) from MVGR College of Engineering, with a strong passion for Java Full Stack development, machine learning, and data-driven solutions. Adept at designing and building scalable applications that solve real-world problems effectively.

Education

BACHELOR OF TECHNOLOGY, MVGR College of Engineering 2021 – 2025 — Vizianagaram, India
CGPA - 8.4

INTERMEDIATE, NRI Junior College 2019 – 2021 — Hyderabad, India
CGPA - 9.7

SECONDARY SCHOOLING, APR School 2019 — Ammanabrolu, India
CGPA - 9.8

Skills

Full Stack Development

Java, C, HTML, CSS, JavaScript, React.js, REST APIs

Database & Tools

MySQL, SQL, Git, GitHub

Machine Learning

YOLO, OpenCV, TensorFlow, Keras, Pandas, NumPy, Seaborn, Deep Learning

Soft Skills

Leadership, Problem Solving, Teamwork

Projects

LPC2148 ARM7 BASED BLUETOOTH CONTROLLED HOME AUTOMATION, Embedded System

- Designed a Bluetooth-based home automation system using the LPC2148 ARM7 MC and a mobile app to control lights.
- Developed an intuitive mobile app interface to send on/off commands via Bluetooth.

TRAFFIC ACCIDENT SEVERITY PREDICTION, Machine Learning & Predictive Analytics [↗](#)

- Built a machine learning model to predict traffic accident severity using a large-scale dataset (7.7M+ records), leveraging Random Forest, SVM, and XGBoost with hyperparameter tuning.
- Performed hotspot analysis to identify high-risk regions and analyzed different factors impacting accident severity.

FAKE CURRENCY DETECTION, Machine Learning and Web Application [↗](#)

- Trained and evaluated machine learning models (Logistic Regression, Decision Tree, SVM) on a balanced dataset, achieving up to 99% accuracy with optimized feature extraction methods.
- Developed a web-based fake currency detection system using Python, OpenCV, and Streamlit to classify notes as real or fake.

Certificates

- Cisco Programming Essentials in C
- Infosys Certified HTML
- Cisco Programming Essentials in Python
- Workshop on Embedded Systems and IOT.

Experience

Intern, NIT Warangal, Telangana [↗](#) May 2024 – Jun 2024

- Worked on circuit simulation and PCB design using LTspice, improving signal performance by 20%.
- Designed and analyzed a mixer circuit achieving 25% noise reduction and 15% efficiency improvement.

Interests
